

COCKATOO simplifies Live production with recording, streaming and a NAS system in one box
 COCKATOO is a portable workstation designed for live production and streaming. With up to four HD-SDI or just one HDMI, you can mix and switch different media sources for live streaming while recording the output on a powerful stor-

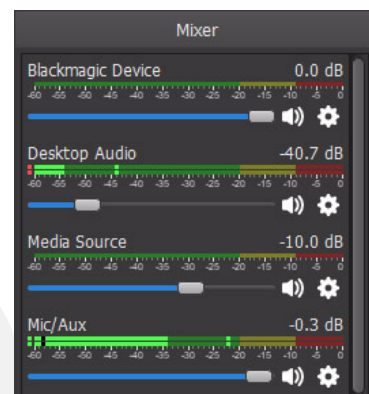

Scenes and Video Sources

Connect your favourite devices, from cameras to game consoles via the 3G-SDI or HDMI 2.0a input ports and mix window captures, images, browser windows and more.

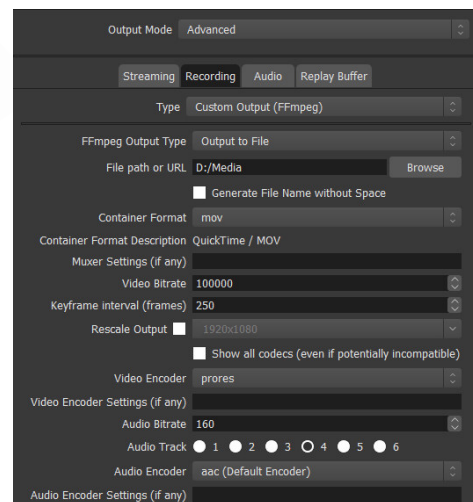

Audio Mixer

Intuitive audio mixer with source filters such as noise gate, noise suppression, and gain.

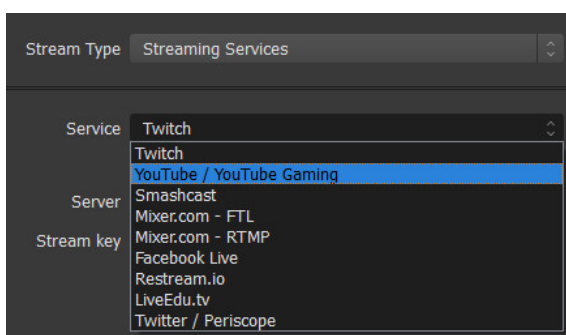

Multiple formats recording

Record the program to output to file formats in H.264 or ProRes among others.

Live Streaming

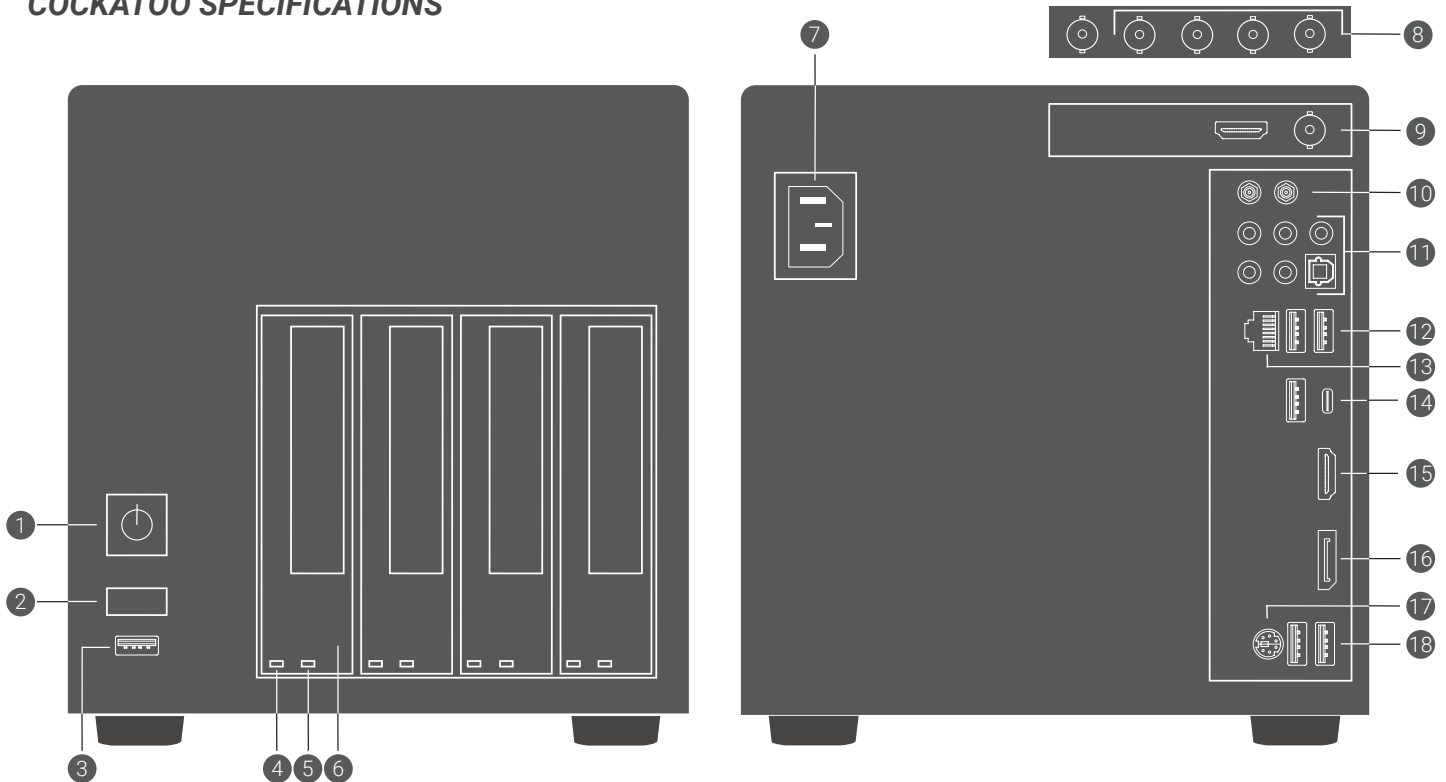

Live stream and record your program output to YouTube, Facebook, Twitter, Wowza or any RTMP server.

Stream multiple live cameras while mixing in other media such as movies, images, text and sounds and include features such as transitions and chroma keys.

COCKATOO is ideal for broadcasting professional-looking live internet shows, online gaming, concerts, church services, corporate meetings, lectures and much more.
